SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–85442; File No. SR–MIAX–2019–15]

Self-Regulatory Organizations: Notice of Filing and Immediate Effectiveness of a Proposed Rule Change by Miami International Securities Exchange, LLC To Amend Exchange Rule 404, Series of Option Contracts Open for Trading

March 28, 2019.

Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b–4 thereunder,² notice is hereby given that on March 21, 2019, Miami International Securities Exchange, LLC (“MIAX Options” or the “Exchange”) filed with the Securities and Exchange Commission (“Commission”) a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to amend Rule 404, Series of Option Contracts Open for Trading, to allow the addition of new series of options on an individual stock until the close of trading on the business day prior to expiration in unusual market conditions.

The text of the proposed rule change is available on the Exchange’s website at <http://www.miaxoptions.com/rule-filings/> at MIAX Options’ principal office, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Exchange Rule 404, Series of Option Contracts Open for Trading, to allow the addition of new series of options on an individual stock until the close of trading on the business day prior to expiration in unusual market conditions. This is a competitive proposal based on a filing submitted by Cboe Exchange, Inc. (“Cboe”) to the Commission.³

Currently, under Exchange Rule 404(e), when faced with unusual market conditions, the Exchange may add new series of options on an individual stock until the close of trading on the second business day prior to expiration. In 2013, the Options Clearing Corporation (“OCC”) implemented a transition for standard option monthly expiration processing from Saturday to Friday. Accordingly, the Exchange, along with other exchanges, updated its rules to reflect the OCC change, referencing Friday expiration dates to replace Saturday expiration dates for all options expiring on or after February 1, 2015.⁴ The Exchange also replaced any historic references to expiration dates with Friday expiration. At that time, other exchanges amended their rules to differentiate between Friday and Saturday or non-business day expirations during the transitional period. Other exchanges specified that additional series of individual stock options may be added during unusual market conditions until the close of trading on the business day prior to expiration in the case of an option

contract expiring on a business day (*i.e.*, Thursday for Friday expirations), or, in the case of an option contract expiring on a day that is not a business day until the close of trading on the second business day prior to expiration (*i.e.*, Thursday for Saturday expirations).⁵ Consistent with the OCC initiative and industry-wide definition, the Exchange currently no longer lists series of option contracts with Saturday or non-business day expirations. The Exchange thus proposes to amend Rule 404 to allow specifically for the addition of new series of options on an individual stock until the close of trading on the business day prior to expiration in unusual market conditions in line with other exchanges’ timing requirements for listing series of options prior to expiration.

The Exchange seeks to introduce this proposed change to Exchange Rule 404 to create a uniform expiration date across exchanges for standard options on listed classes. The Exchange believes that keeping its rules consistent with those of the industry will protect all participants in the market by eliminating confusion, reducing the likelihood of rule violations due to discrepant industry rules, and by allowing for a more orderly market. In addition, the Exchange believes that keeping the proposed rule consistent with other exchange rules will foster better cooperation and coordination with persons engaged in regulating clearing, settling, processing information with respect to, and facilitating transactions in securities by aligning a pivotal part of the options processing to be consistent industry-wide.

2. Statutory Basis

The Exchange believes that its proposed rule change is consistent with Section 6(b) of the Act⁶ in general, and furthers the objectives of Section 6(b)(5) of the Act⁷ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanisms of a free and open market

and a national market system and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5) requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

In particular, the Exchange believes that keeping its rules consistent with those of other exchanges and industry practices will protect all participants in the market by eliminating confusion, thus, preventing investor vulnerability to violating different exchange rules. Additionally, the proposed change will foster cooperation and coordination with persons engaged in regulating clearing, settling, processing information with respect to, and facilitating transactions in securities by aligning the timing of series of options listing during unusual market conditions to be consistent industry-wide. Further, as the industry-wide transition from Saturday (and non-business day) expiration dates to Friday (or other business days) expiration dates was successful, the Exchange believes the proposed rule change will remove a discrepant industry impediment and allow for a more orderly market by permitting all options markets, including the clearing agencies, to have the same expiration date for series of options listed during periods of unusual market conditions. The proposed rule change also perfects the mechanism of a free and open market by allowing for the Exchange to list additional series of options on an individual stock closer to expiration during unusual market conditions thus better aligning the listed series of options with prices near expiration. Finally, the proposed rule change does not permit unfair discrimination between any Member as it applies to all Members equally.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. In this regard and as indicated above, the Exchange notes that the rule change is being proposed as a competitive response to the proposal previously filed by Cboe with the Commission.⁸ The proposed rule change will allow for the Exchange to list additional series of options on an individual stock closer to expiration during unusual market conditions thus

better aligning the listed series of options with prices near expiration.

The Exchange also believes the proposed rule change will not impose any significant burden on competition. The proposed rule change has no impact on intramarket competition, as it will apply equally to all Members. Moreover, the proposed rule has no impact on intermarket competition, as it is a competitive response to the proposal previously filed by Cboe with the Commission.⁹ The Exchange believes that the proposed rule change may relieve any burden on, or otherwise promote, competition by allowing the Exchange to better align listed series of options with prices near expiration, and with expiration dates of other exchanges.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁰ and Rule 19b-4(f)(6) thereunder.¹¹

A proposed rule change filed pursuant to Rule 19b-4(f)(6) under the Act¹² normally does not become operative for 30 days after the date of its filing. However, Rule 19b-4(f)(6)(iii)¹³ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay. The Exchange believes that waiver of the operative delay is consistent with the protection of investors and the public interest because it is substantially similar in all

⁹ See *supra* note 3.

¹⁰ 15 U.S.C. 78s(b)(3)(A).

¹¹ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6)(iii) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

material respects to a previous CBOE filing,¹⁴ and does not raise any new or novel issues. For this reason, the Commission believes that waiver of the 30-day operative delay is consistent with the protection of investors and the public interest. Therefore, the Commission hereby waives the operative delay and designates the proposal as operative upon filing.¹⁵

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

[Docket No. FAA-2019-0228]

Agency Information Collection Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: Operations Specifications, Part 129 Application

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew a previously approved information collection. The FAA assesses the information collected and issues operations specifications to foreign air carriers. These operations specifications assure the foreign air carrier's ability to navigate and communicate safely within the U.S. National Airspace System.

DATES: Written comments should be submitted by June 3, 2019.

ADDRESSES: Please send written comments:

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency

will summarize and/or include your comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120-0749.
Title: Operations Specifications, Part 129 Application.

Form Numbers: There are no FAA forms associated with this collection.

Type of Review: Renewal of an information collection.

Background: The final rule published in 2013, clarified and standardized the rules for applications by foreign air carriers and foreign persons for operations specifications issued under 14 CFR part 129 and established standards for amendment, suspension and termination of those operations specifications. The final rule also applied to foreign air carriers and foreign persons operating U.S.-registered aircraft in common carriage solely outside the United States. This action was necessary to update the process for issuing operations specifications, and it established a regulatory basis for current practices, such as amending, terminating, and suspending operations specifications.

Respondents: Approximately 25 new applicants annually.

Frequency: Information is collected on occasion.

Estimated Average Burden per Response: 3 hours.

Estimated Total Annual Burden: 75 hours.

Issued in Washington, DC on March 26, 2019.
